## Teachers' Hold **Convention At** Wainwright

The fifth annual convention of the teachers of the Wainwright inspectorate was held October 16 and 17 in the Wainwright High school, with an attendance of about eighty tetachers.

After registration the convention was opened by the address of welcome delivered by Major Gerow of Wainwright. This was replied to by Miss Jelfs.

Committees were then appoint- last year. ed as follows:

McKay. Mr. McShane and Mr. G. Saul. Resolutions committee: Mr. Line. Mrs. Clark and Miss

"But. mummy, I heard dad say fingers were made before forks.' "Not yours, Tommy, dear."

### **Edgerton Mourns** Death Of E. J. Tennant

Edward J Tennant, Pneumonia Victim at Ageg of Thirty-Eight

After a period of sickness which developed into pneumonia, Edward J. Tennant, of Edgerton, died at his home on Saturday evening, Oct 18th at the age of 38 years. He came to this district about fourteen years ago and together with his brother farmed very choice section of land. Deceased was a staunch member of the L.O.L. No. 2534. under whose auspices the funeral was held. A. Beckwith, student in charge of the Anglican Church, and himself an Orangeman conducted a short service at the home after which the body was taken to the village church where the full orange service was held. Falling into ranks the order proceeded in formation to the cemetery. followed by a very large number of friends of the deceased who came to pay their last respects to a true friend and brothers and a sister are left to mourn his Trly demise.

#### LOCAL WHEAT POOL ASSOCATION TO HOLD ANNUAL MEETING

A meeting of the local Wheat Pool Association will be held in the I. O. O. Hall at Chauvin on This being the annual meeting, Wednesday, Nov. 12th at 2 p.m. many matters of importance will be brought up and all members and intending members make it a point to attend.

Details of special train service. via Canadian National Railways, to the ship's side, Halifax. for Old Country Christmas Sailngs, are announced elsewhere in this issue. There will be a big demand for these Christmas sailings and those contemplating a trip to hite Old Country should book now with the local agent of the Canadian National Railways, who repressents all steamship lines and who will be pleased to make complete arrangements for your trip.

The Ladies Auxiliary of the L. D . S. Church will hold their annual Fowl Supper & Bazaar on November 13th. A quilt made by the auxiliary will be aurtioned. There will be a fish pond. Everybody cordially invited.

Long evenings are now coming on, you naturally want to read more but your eyes will not stand it. You get no comfort when you do try reading. you throw down the book or paper and quit. Consult C. C. McKechnie we guarantee to fit you so you can read and enjoy it. C. C. McKechnie

J. BRADLEY, Treasurer

## Winter Bee Feeding

wintering of bees are young bees and ample stores. To secure the first. young bees, a natural fall flow or an artificial flow produced by feeding is required to sti-35.46 mulate brood production. If ample stores are lacking they 36.55 must be provided by feeding.

The feed supplied may be ei-2.03 ther a honey or a sugar syrup, 13.54 and in making the latter none but 7.18 the best white granulated sugar 3.16 should be used.

For stimulative feeding, a light 25.92 syrup of approximately one part 38.12 honey or sugar to one part water 6.18 is best. This syrup may be given 11.98 to the bees in various ways, but 98.89 the one most generally used is 35.27 the honey pail method which con-52.62 sists in inverting a 5 or 10 pound 33.46 honey pail of syrup over the 12.83 frames. the cover of which pail 28.31 has 3 or 4 holes is it, pierced by 30.11 a fine nail.

Colonies wintercellared should many human lives. 60.87 weigh 60 to 65 pounds, without 26.88 hive cover, and those wintered outside from 70 to 75 pounds. 1.67 Any deficiencies should be made 10.25 up by feeding one pound sugar 50.18 for every pound lacking in stores. 50.18 The syrup given in this case 50.18 should consist of 2 parts sugar 73.69 to one part water, or 5 parts ho-99.86 ney to one part water, and should 30.88 be fed from 10 pound honey pails 55.73 as above described, each pail hav-31.51 ing 40 to 50 small nail holes in 7.78 the cover. Feed may be given 17.77 either hot or cold. When fed hot. 38.31 however, there is a greater dan-7.77 ger of granulation but the syrup 11.98 is more readily taken down by 11.97 the bees.

33.44 Feeding should be done about 12.52 the first of October, as rapidly as 52.60 possible and in the evening to 12.59 avoid disturbance.

Friend: "I suppose you are 14.54 kept pretty busy digging graves' Sexton: "Sometimes I am, and S. 1/2 1 44 27 3 ..... 45.38 N. E. 10 46 27 3 ..... 17.78 sometimes I ain't. The trouble N. E. 2 44 27 3 ..... 26.28 N. W. 10 46 27 3 ..... 17.77 is people won't die regular."

## Public Health Notice

Owing to the prevalence of con-peral fever; ophthalmia neonaagious, or infectious diseases at torum; pulmonary tuberculosis; the present time; and of several glanders; cholera; erysiplas; aneases where the householder has thrax; bubonic plague; rabies ailed to give proper notification (which produces the disease in to the proper Authorities.

Board wishes to draw the atten-cerebro-spinal meningitis; ion of all ratepayers to the folowing regulation:

"Whenever a householder asertains or has reason to suspect rural municipalities, to the local hat a person within his family or board.. .. ousehold is infected with any of

Smallpox; chickenpox; dip heria; scarlet fever; typhoid ever; measles; German measles whooping cough; mumps; puer | prosecuted.

man named hydrophobia); polio-The Local Medical Health myelitis (infantile-paralysis); or

He shall within twelve hours give notice in writing as follows:

(a) In cities, towns, villages or

(b) In districts organizzed he following notifiable diseases, under The Local Improvement Act. to the Provincial board."

> Any person failing to comply with these regulations will be

LOCAL BOARD OF HEALTH M.D. RIBSTONE, No 421

#### THE SAVE THE CHILDREN FUND

The Western Grain Campaign of 'he Save the Children Fund, in aid of the starving women and children refugees driven out of Turkey into Greece, has been set throughout the three Prairie Povinces with the cooperation of all the Grain Growers, Wheat Pool and Elevator Companies and Farmers' Organizations. 20,000 Two of the essentials for good posters have been distributed and elevator managers will receive dona-CHAUVIN tions of grain and will then issue a graded storage ticket which the donor will endorse to The Save the Children Fund. A recent cable from Dr. Kennedy, the Canadian Representative of the Fund in Greece, makes a stirring appeal for help as tens of thousands of these suffering war victims are still being evicted from Turkey and are pouring into Greece helpless, poverty-stricken and hungry.

> Many contributions of cash are being received by the Honorary Treasurer of the Fund, C. W. Rowley, 305 Scott Block, Winnipeg. A number of Womens' Institutes, Homemakers' Clubs and Wemens' Section of Grain Growers' Associations are voting help in this way, while numerous churches and Sunday schools are doing the same.. It is a case of "he who gives quickly, gives twice," and those who wish to help in this worthy cause may be assured that their gifts will be quickly and economically administered and that they will thus help to save

### IT'S YOU

'If you want to live in the kind of a town

That's the kind of a town you You don't have to slip your

clothes in a grip, And start on a long, long hike.

You'll only find what you've left behind,

ly new. It's a knock at yourself if you

knock your town; For it isn't your town, it's you.

Real towns are not made by men afraid.

Lest somebody else get ahead, If everyone works, and nobody shirks.

You can raise a town from the dead."

Jack: "My brother's a fool." Jill: "I never met him, but I can readily believe it."

"What is woman's dangerous

"From the cradle to the grave"

CHAUVIN,

## HELLO EVERYBODY!!

## Look at These New Prices

Compare them with mail order prices. And Remember---I have a personal interest in the satisfactory operation of every set I sell.

### R.C. & R.S. Sets

I still handle the Sets advertised last year at greatly reduced prices.

WESTINGHOUSE R.C. three tube set, with phones tubes and batteries ..... \$108.00

WESTINGHOUSE R.S. one tube set. with tube phones batteries and aerial quipment ..... \$40.00

### Vacuum Tubes

Radiotron and Westinghouse tubes 200. 201, 201A, 198. WD11, WD12, WD25 ..... \$5.50

Prices are F.O.B. Chauvin

## Westinghouse Radiola III-A

The RADIOLA IIIA in a new high grade regenerative receiving set. using four WD-11 tubes. arranged as a detector with two stage audio frequency amplifier. the second stage using two tubes in the balanced. or push-pull. circuit. The apparatus is mounted or an attractive panel of durable material and is enclosed in a solid mahogany case. A flexible cable is provided at the rear so that batteries may be placed in a convenient postion. This set should prove to be one of the most suitable for both rural and town fans as it operates entirely from dry cells and will operate a loud speaker quite efficiently on Canadian and States stations. often bringing in stations such as Pittsburg. Penn. and Schenectady. N.Y . so they can be heard oll over the room. RADIOLA III-A complete with tubes. phones batteries and \$88.50 aerial equipment. Price delivered .....

## Westinghouse Radiola III

RADIOLA IIII the same set as Radiola III-A except that it is t two tube outfit. the balanced amplifier being omitted. This set is more economical than the Radiola III-A and where a loudspeaker is not desired. this is the ideal set to bring in both near and distant stations.

RADIOLA III fully equipped with tubes batteries, phones and 

The above set may be added to at any time by buying tha Radiola Balanced Amplifier. By adding this you make it as powerful as Radiolo III-A

## Radio Supplies

If you contemplate building a set come in and I will help you to select the parts. The parts I sell are of guaranteed quality with a price that will meet mail order competition.

## Loudspeakers

WESTINGHOUSE Loud Speak-

Brandes Table-Talker \$13.50

AMPLION Phonograph Unit, to use a phonograph as a loudspeaker ..... \$26.00

BALDWIN Type C. Phonograph Unit ..... \$9.00

I will instal sets purchasfrom me free of charge.

omparatively few of the thousands of miles of railroad organization which does not rely to a greater or lesser extent on electricity as an aid to efficient operation and service. Electricity plays an important part in all of the great Railroad Shops through the country. Some trains and cars are operated by power directly transmitted or stored in batteries. Bridges are operated, and a thousand and one electrical devices are in constant use which beside being labor saving do away with the human element which might make for inefficiency. Numbered among these are the automatic Block Signals which one finds distributed along the line of the Canadian Pacific, and notices particularly in the Rocky Mountain passes where they are more urgently required.

To the average layman an automatic signal is just a signal, and the general public is only interested in it because it gives added protection, or rather eliminates possible danger from the portion of track which it governs. To the railroad official it is more. It acts as watchman

other obstruction. Through a circuit in the rail this is accomplished, and if the circuit be broken, for the reason that another train is occupying the block, or that there is an open switch, a broken rail, washout or other obstruction, then the train approaching the signal may not pass. And while it awaits a through signal, trains following in the rear may not approach for the reason that they are also stopped by an automatic signal which will not release them until the preceding train has passed from that section of the track which they desire to enter. A perfect system. No electrical circuit - no through

The value of this system in the Rockies can hardly To the railroad official it is more. It acts as watchman against broken rails, open switches, a fouled track or any company is able to ensure absolute protection.

signal — no train may pass.

Cream is graded on arrival of all trains by experienced Government Grader and Payments sent out same day. Cream is handled by experinced Creamery Men and every possible care is taken to see customers receive correct returns.

PRAIRIE SOILS

(Continued from page one)

The Influence of Grain Growing on the Soil's Fertility

Grain growing as practised on ALBERTA the prairies, lokoing to the upkeep of soil fertlity must be regarded as rratonal and wasteful, for it means not only the carrying off in the grain sold much plant food without any attemvt at its return, but what appears to be still more serious—the destruction of much organic matter and the dissipation of nitrogen consequent upon summerfallowing. Further, this is a practice which breaks up the soil's fibre, permit tting the soil on drying to become powdery and to blow or drfft under the strong winds prevailing in the prairies. The loss of valuable surface sol from this cause has become very serious in many districts. ehedisist

> One illustration may suffice of this influence of the common practice of grain growing on the nitrogen content of the soil; although this soil is, to-day exceedingly rich and undoubtedly very fertile the data shows the enormous loss of nitrogen that has taken place.
